

My family is asking to keep K-LOVE on the air and not to be replaced by a Low Power FM broadcast service.

K-LOVE serves my family throughout the day by providing a much needed uplifting message and music. They provide a very positive listening environment for my entire family and especially our kids. We believe that K-LOVE has had a major impact on keeping our kids from getting involved in many negative aspects of our world today such as alcohol, drugs, premarital sex, cursing, and violence.

My wife and I are involved in various community activities and have both worked at fairly large employers. We know that K-LOVE has a major impact on much of our community just as it does on our own kids.

K-LOVE is not your average FM station to our local community, and to communities across our nation. It actually provides a very significant positive influence on our entire families and communities, unlike most of the other stations which seem to provide many negative influences to our children.

We feel that K-LOVE is one of the few broadcasters that will have positive overall influences on our society today, which will affect our society for tomorrow.

I would be happy to provide more information if it would be helpful.

Thank you for your attention to this matter.

Sincerely,  
Mark Mrla
